Standpoints And Differences: Essays In The Practice Of Feminist Psychology

by Karen Henwood Christine Griffin Ann Phoenix

Feminist standpoint theory is the extension of feminism into theoretical, fictional, or philosophical discourse. Feminist psychologists, such as Jean Baker Miller, sought to bring a feminist perspective to the literature in community psychology, feminist psychology, and the psychology of women. Feminist standpoint theorists believe that the standpoint of women is central to understanding psychological processes and that psychological theories must take into account the experiences and perspectives of women.
